Our seeds have been planted by the United States Department of Agriculture "Forest Service" for over twenty years, with entire satisfaction.

TERMS—To those of established credit or known responsibility sixty days net from date of invoice. Others please give references. Three per cent. will be allowed for cash with orders.

Write us for prices on large lots.

NOTICE

In order to get good seeds and true to name, you will do well to purchase of those who have had experience in the business, and know the different species and when they are ripe enough to gather, and who superintend the collection of their stock in person. Some of the coniferae are so much alike in appearance that none but an experienced eye can distinguish them apart.
